It's easier to connect to your plan

Your benefits include personalized digital tools to help you check on your plan whenever you want, which may help make it easier to stay on top of your benefit details.

Your personalized digital tools – the UnitedHealthcare app and **myuhc.com**[®] – give you quick access to resources designed to help you:

- View benefit info, claim details and account balances
- Search network providers and facilities for the type of care you may need
- Quickly compare cost estimates before you get care, which may help you save money
- Learn about covered preventive care
- Access your health plan ID card and add your plan details to your smartphone's digital wallet

Once your plan begins, you can download the UnitedHealthcare app to connect with your plan while you're on the go or sign in from home with **myuhc.com**.

Simple ways to help you save

Here are a few good-to-know things you can do to help you get more out of your health plan.

Stay in the network

The doctors and facilities in the network may have agreed to provide services at a discount – so visiting an out-of-network provider could end up costing you more for care or may not be covered at all. Sign in to myuhc.com > **Find Care & Costs** to locate:

- Labs
- Hospitals
- Mental health professionals
- Network providers

Shop around

With such a wide variety of services – from minor procedures to major surgeries – it’s a good idea to check approximate pricing first. Visit myuhc.com > **Find Care & Costs** to estimate your costs.

With a PCP, there's a doctor in your corner

A PCP is a primary care provider, sometimes called a primary care physician. They are the doctor who can help connect you to the care you need – and may help you avoid cost surprises. A PCP can be a family practitioner, internist, pediatrician or general medicine physician.* Although your plan may not require you and each covered family member to select a network PCP**, it can be a good idea to have one.

Your PCP:

Generally knows your health history and health goals

Provides routine care, which may help identify potential health issues earlier

Advises you when to see a specialist and provides electronic referrals

*Laws in some states allow you to choose a specialist, like an OB/GYN, as your PCP.
**Depending on your health plan, selection of a PCP may be required.

Keep up on preventive care

Preventive care – such as routine wellness exams and certain recommended screenings and immunizations – is covered by most of our plans when you see network providers. A preventive care visit may be a good time to help establish your relationship and create a connection for future medical services. Learn more at uhc.com/health-and-wellness/preventive-care.

Find a network provider

Sign in to myuhc.com > **Find Care & Costs** to find a network PCP, clinic, hospital or lab based on location, specialty, availability, hours of operation and more. You can even see patient ratings and estimate the cost of care before you choose a provider. If you would like more information about a provider's qualifications, call the member phone number on your ID card.

Choose a doctor

The **UnitedHealth Premium® program** uses national, evidence-based measures to evaluate physicians in multiple specialties to help you make more informed choices for your medical care. Find UnitedHealth Premium Care Physicians by going to myuhc.com > **Find a Provider** and look for blue hearts.

Here's an example of how a typical health plan works

Let's take a look at an example of how a typical plan works when you receive care from a network provider. Your plan may be different than this example, so to find your specific details, go to myuhc.com > Coverage & Benefits.

Plan start

 You pay 100%*

At the start of your plan year, you pay 100% of your covered health services until you meet your **deductible**, which is the amount you pay before your plan starts sharing costs.

Deductible reached

You pay 20% Your plan pays 80%

Now, your health plan starts to share a percentage of the costs with you – this is your **coinsurance**.*

Out-of-pocket limit met

Your plan pays 100% 

Here, your plan's got you covered at 100%. Your **out-of-pocket limit** is the most you could pay for covered services in a plan year – copays and coinsurance count toward this.

Along the way, you may also be required to pay a fixed amount – or **copay** – each time you see a provider.

*Your deductible and coinsurance may vary by plan or service. This example is for illustrative purposes only. Please refer to your official plan documents for coverage details.

Here's what to do if you need:

Hospital care

Talk to your PCP first to determine which hospital in your network can meet your medical or surgical needs. You or the admitting physician may be required to notify us before you're admitted.

Prior authorization

Your plan may also require prior authorization, sometimes called preauthorization, before you receive certain services. Call the member phone number on your ID card or sign in at myuhc.com > Coverage & Benefits to check if prior authorization is needed.

Referrals

If your ID card says, "Referrals Required," have your PCP send us an electronic referral before you make an appointment with a specialist or other network provider. Without it, your care may not be covered and you may end up paying more. To learn what services require referrals, or to confirm that a referral has been made, sign in at myuhc.com > Coverage & Benefits.

Certain preventive care items and services, including immunizations, are provided as specified by applicable law, including the Patient Protection and Affordable Care Act (ACA), with no cost-sharing to you. These services may be based on your age and other health factors. Other routine services may be covered under your plan, and some plans may require copayments, coinsurance or deductibles for these benefits. Always review your benefit plan documents to determine your specific coverage details.

Evaluation of New Technologies: UnitedHealthcare's Medical Technology Assessment Committee reviews clinical evidence that impacts the determination of whether new technology and health services will be covered. The Medical Technology Assessment Committee is composed of Medical Directors with diverse specialties and subspecialties from throughout UnitedHealthcare and its affiliated companies, guest subject matter experts when required, and staff from various relevant areas within UnitedHealthcare. The Committee meets monthly to review published clinical evidence, information from government regulatory agencies and nationally accepted clinical position statements for new and existing medical technologies and treatments, to assist UnitedHealthcare in making informed coverage decisions.
