

# We're committed to helping protect you and your loved ones.

Think of the Seniors in your family and how vulnerable they may be to fraud.

## Senior Family Protection

Did you know that the FBI's Internet Crime Complaint Center (IC3) recorded an 84 percent increase in fraud losses (\$3.1B) reported to them in 2022 by victims over the age of 60?<sup>1</sup>

You can now add your parents or grandparents and those of your partner to your benefits plan and help better protect your parents from becoming a victim of the next fraud scam.

## How Does it Work?

- Log into your ID Watchdog account
- On the Family screen, click 'Add Family Member' and select the family member type
- Enter their personal information, and click 'Save'
- Your parent or grandparent receives a welcome email with a link to set up their account.
- They can start to enjoy all of the great monitoring, locking, and digital protection including antivirus and personal VPN tools in your plan. And with our customizable alert options, you can set up and then watch for alerts on behalf of your parent or grandparent, with their permission, whether they live down the street or thousands of miles away.

## Take Advantage of All Plan Features

After adding them, if your parent or grandparent needs help with their new ID Watchdog account, our customer care team is available 24/7 to help them with their account setup and turn on some of your plan's most important features.

## More features to help protect Seniors.

- Multi-Bureau Credit Lock
- Subprime Loan Block<sup>2</sup> within the monitoring lending network
- Social Accounts Monitoring
- Registered Sex Offender Reporting
- Device Security & Online Privacy
- Personal VPN
- Dark Web Monitoring<sup>4</sup>
- Data Breach Notifications
- High-Risk Transactions Monitoring<sup>3</sup>
- Subprime Loan Monitoring<sup>3</sup>
- Public Records Monitoring
- USPS Change of Address Monitoring
- Personalized Identity Resolution

We're here for you and your family 24 hours a day, 7 days a week.
